1956 INDEXES

LIST OF JOURNALS REGULARLY RECEIVED

So that users of PSYCHOLOGICAL ABSTRACTS may know the extent of our coverage, we publish below the tenth annual list of journals which are regularly searched. This list, revised by the deletion of journals which it is no longer possible to cover regularly and by the addition of other journals, totals 503. Coverage categories are indicated by type face: **bold face**, journals received by the editorial office; roman, journals searched by the abstractor. The list is correct as of 1 November 1956. In those cases where no abstractor is indicated, the journal is temporarily unassigned.
